Hallo mijn Nederlandse apen,

I'm stuck with DeGiro and am a bit confused as to how do I get my shares DRS'd. I've read posts on Giveashare and transferring to IBKR. I'm interested in the later because i don't have a lot of investable income ATM. Had anyone managed to transfer to CS through IBKR? If yes, can you please ELI5 how to go from DeGiro to CS?

bedankt alvast!
