1. Sell 1 ETF short
2. Buy all individual stocks in this ETF except GME

-> indirectly shorted GME via ETF

To all the **#COKE** stockholders,

The reason you lost money today is abusive short selling on ETF's containing the S&P Small Cap 600.

The ETF's were used to indirectly short another company in this index, so the short sellers bought all other stocks in the ETF including **\$COKE**...

Replying to @don\_palme

So when **\$COKE** left the index today, the short sellers had to get rid of these additional stakes in **\$COKE** at all cost.
