I saw some of that, here's what I caught

[Local time AH closes @ 19:00](<https://preview.redd.it/bwv93neaz7v71.png?width=464&format=png&auto;=webp&s=56a5bb52ebb5dc8b9035f928051d7874ab284495>)

[Still there, just hangin' out, on top of the book](<https://preview.redd.it/1x0vsfaqz7v71.png?width=460&format=png&auto;=webp&s=b9d69d1ada242c124564b15ea63d71a6120ca0f9>)

The last 30 seconds of AH on SPY was nuts, a big sell order came in with like 5,10 minutes in AH, in the last 10 seconds or whatever it filled the top of the book down to 452.30 AH close, that poor guy @ 452.22 never got his order, but almost, almost sniped the bottom of the session at the very end, .08 short

I saw the upside down ask and figured I was gonna learn something, so I watched. Not really sure what I learned, if anything. I tried to rationalize it, like, maybe it's just stuck there, just a glitch. Book acted like it was a glitch, pretty much ignored the ask. But that price really wasn't relevant in a few sessions now, so????

Maybe it's a big nothingburger, maybe it's crime, I lack the wrinkles
