After review, your DRS Out request is in good order and was approved on 8/5. DRS Out requests typically take a minimum of 7 business days to process from the date we submit. Due to current volumes requests are taking 2-4 weeks to process. Expedites cannot be honored as there are other factors involved with processing the requests that are out of TDA's control.

other brokers are able to do it within 3-4 days... why is this taking so long?
