A lot of us are feeling the pain. Not only in GME but in most of our stonks. The Nasdaq was up almost 2% at its high today to get pummeled in the last half of the day to a loss of 1.3%. 3.3 trillion dollars worth of options expire tomorrow!! Trillion dollars yep . . . that is right!! I don't even know how many 0's are in a trillion . . . but it is a shit load!!!
