Oh god, and here I was thinking all the sub-GME were filled with whales.

"Here's my purple ring 24.000 shares"

- What, 24 thousands shares ? Damn... nice.

"Hey guys, just DRS a small amount. My 11.000 shares"

- Oh okay... guess I could buy 1 more share if he buys 11 thousands.

I am surprised with haven't registered 69x the float with those numbers.

But then I remembered that I am a smooth non-english brain and that your full stop are our commas (french here).

Honestly it is sometime really hard to keep track of the DRS for a non-english ape. Y'all English people so fricking rich. Here I am with my 95.000 shares, or should I say... 95,000 shares, as in 95 shares.

So anyway... I bought more, and DRS'ed.
