Re: paradigm shifts/speculative peaks,
the SP500 bottomed 13% lower than
2002's bottom in 2009, 17% lower than
1998's LTCM crisis low in 2002, and
10% lower than 1970's low in 1975. 15%
lower than the COVID low is SPX 1,862,
~Shiller PE of 16, nominal PE of 9. In
historic range.
