Hi. I DRS my test share from ibkr 2 weeks ago. It disappeared from account and its sucessful. What now?

Im waiting for first letter. How long it takes?

I was hoping to have account ready to buy much more from computershare directly before split.

Also what are price predictions? Sadly im only xx ape and no idea if its enough. corn apes will sell at around 280\$ (TreyT). What are realistic price predictions with GME?
