Just saw an article under my ticker about Gamestop CEO salaries, what purpose does this article serve? For me it tells me the company is in good, well fed hands, but I feel like they wanted to drive a wedge between the poors and the rich CEO, didn't work, im actually more confident about this after reading that sh!// puff piece, gonna wait till it dips some more and see how many shares I can grab with wants left in my account.

lol you cant say sh!//
