The first NFT, a WuTang one of a kind album, purchased by a group called the PleasrDao Collective,

PleasrDao Website....

They are of the mindset that DeFi is the way to change the game...

RC is almost certainly the black hoodie PleasrDao wearing guy in this picture...

LOOPRING/ETHEREUM Changing the Game

Honestly, Loopring Practically Shouted it From the Rooftops
DEFI is HERE AND THEY ARE IT

"Holy Torpedo Tits!" or Connecting Dots with Llama

First, DeFi is the end game, not MOASS. MOASS is the catalyst for DeFi. Most of us had it backwards or didn't even think further than MOASS, but others have been playing 5D chess this whole time.

It seems to have started with this guy...Andre Cronje...Read up on him—he's important and very likely the founder of the DeFi movement!

The idea of bankless banking and decentralized finance actually took root some time ago. NFTs as well....

Once Upon a Time in Shaolin

Decentralized Markets and Market Makers (Kenny definitely shitting himself, among others!)

Guess what $x*y=K$ means...

Ethereum is the foundation of everything...And these guys are in on it...the PleasrDao connects them all in the gallery section, if you look at all the NFTs there.

	Ethereum ETH
	Loopring LRC
	Uniswap UNI
	Decentraland MANA
	yearn.finance YFI
	Curve DAO Token CRV
	DFIMoney YFI

UNISWAP, guys. Uniswap.

CREAM Get the Money, WuTang, NFT, DeFi and the game begins...Ryan Cohen knew what was happening to Gamestop. It was being intentionally run into the ground, by Amazon, I am relatively sure. So, as a member of PleasrDao, he stepped up because it was so fucked up and the financial markets were a scam and he thought it sucked. I think.

You all know about the frog, ice cream cone, rocket, thing. Welp, go to the PleasrDao site and gallery and you'll see what I mean...

Get it, Ice Cream Tweet, CREAM WuTang Song, And CREAM FINANCE?!

So, if you connected the dots like a good ape, you know what's coming. There is an uprising. Crypto is the solution, not a side effect.

DeFi is the way. The GME saga is yet a small piece of a much larger initiative for fair, free, and more equitable markets.

In closing, there is a lot I don't know, but I do know that we are absolutely obligated to make this world a better fucking place when we all become filthy rich. If we become like the douchebags we hate, it's all for nothing. Remember that. See you in the morning!

Oh, and even though I'm not sure, I'm pretty sure that RC is TED from PleasrDao—remember his Ted Tweet? Also, his Dad's name was Ted. Nice touch, if true. Very nice touch, indeed. He was always pointing us in this direction. Now, go back through his Twitter feed and see the connections. It makes so much sense.
