**\*\*Summary:\*\***

if you havent read or watched this please do - this explains the problem of ftds.

From /u/gobba-gobba-gooey

"Dr Trimbath: I have read you book, and am astonished at all of the mechanisms and tactics available to the incumbents to delay, defer, and frankly avoid FTD resolution. Given all that you have seen, do you believe that "the shorts MUST cover" their positions, especially in view of a massive squeeze? Or, is it your view that they have a path using these tactics to eventually get out of the position without a squeeze?"

Wes Christian is a Texas attorney with [an accent as big as his list of accomplishments](http://www.csj-law.com/attorneys/jchristian.html)! Once again I'm going to [shamelessly plug the old documentary Wall Street Conspiracy](https://youtu.be/KpyhnmD-ZbU), where I first learned of Wes Christian along with all of the other OGs we've been talking to. And a fun fact... our former AMA guest and very favorite resident wrinkly brain, [u/dlauer](https://www.reddit.com/u/dlauer/) has served as an expert witness for Wes multiple times in the fight against naked short selling.
