is still that you'll lose ALL your money.

Nope. False. Untrue.

The most anyone on the long side can lose(providing you aren't messing about with options) is the amount you invested. Not even that, as you will recoup at least part if you sell(if you sell like a paper handed biotch at a small price).

Now, those who are heavily short on Gamestop ...they CAN Lose more than they invested. Up to and including ALL their money. I guess the point I'm making is pay attention to the semantics of the FUD posts and it becomes easy to sniff out the bullshit. Keep thinking critically. Keep asking questions.
