If MSM is part of the problem, post gme moon, if enough primates got together and bought a media outlet that wasn't already bought by the uber rich for propaganda purposes, wouldn't that have the possibility of giving rise to real change in the world? Btw, gotta credit

[u/fakename5](<https://www.reddit.com/u/fakename5/>) for this idea in a comment. Defi and smart contracts make such things possible, right? I wonder what other sorts of projects to make a better world could be possible in such ways.
