CHOPSTICKS! couldn't mean anything right?

Hmm. Let's dive a little you surface fishies. I wish to show you underneath the surface. just a lil.

So here's the deal. This will be updated shortly i need to Gather resources before this update. Chopsticks translates to Kuaizi in CH. Kuaizi is a company that specialises in :

<https://preview.redd.it/tnynlkrjwft71.png?width=750&format;=png&auto;=webp&s;=174891e88ef0e8e74747b2fabd2ea159b6815090>

Kuaizi huh?

<https://marriottstudentreview.org/vol-4-issue-3/ai-in-advertising-will-it-replace-us/>Mentions of kuaizi But it's written in an editorial fashion

<https://preview.redd.it/gyk4tjpkwft71.png?width=1036&format;=png&auto;=webp&s;=5f5ec8386fa44d6f5bcb5f81fa826064e7252c7e>

Mentions the Shaohui Li, founder of Kuaizi Technology and Quick Decision Technology.

<https://preview.redd.it/708syz6byft71.png?width=1620&format;=png&auto;=webp&s;=8cc122e00311939d00d8d6e4f83a6372935ea14e>

[kuaizi.ai](<https://kuaizi.ai/>) shows Kuaizi has partnerships with :

1. Bytedance is Tiktok (social media)
2. Kuaishou is the direct chinese competitor to Tiktok , HKG: 1024 (stock ticker) (social media)
3. facebook (social media)
4. instagram (social media)
5. google (session data/metadata)
6. Tencent (epic games/fortnite) (interesting AF partnership)
7. Alibaba, (session data/metadata)
8. PDD,
 1. Pinduoduo Inc. is the largest agriculture-focused technology platform in China. It has created a platform that connects farmers and distributors with consumers directly through its interactive shopping experience. In 2019, nearly 12 million farmers supplied their fruits and vegetables to Pinduoduo users. (AKA amazon Competitor?)
9. JD,
 1. JD.com is China's largest online retailer and its biggest overall retailer, as well as the country's biggest Internet company by revenue. (session data/metadata)

Interesting enough when looking through these partnerships I did find something interesting with PinDuoDuo and google...

<https://preview.redd.it/9z2s2dra3gt71.png?width=575&format=png&auto=webp&s=cf129968626fd0b9fc987623862ab4d3be797624>

So Google seems to keep showing up. Let's get back to Kuaizi tho.

1. Kuazi has partnerships with google, pinduoduo, Tencent, and facebook. neat.
2. Lei Chen is the Tencent Holdings Ltd. CEO and Kuaizi Partner through Tencent ,
3. Also he has a Phd in Computer Science, university of Madison, Wisconsin, apparently.
4. Saiyi Capital, also SiE Capital, is the venture arm of SiE, an IT consulting service company.
5. Saiyi Capital has made 11 investments. Their latest investment was in Zhengma Technology as part of their Series A on July 7, 2021.

The above snip from the good ole bloomterd show that

![img](xv0jcgizknt71 "Chen Lei arises from the flames to replace CEO Colin Huang")

So that's a swirly woo of connections. Let's make some more. Here is another CEO named Winder Chen that is also founder of Quick decision.

This is a lil bit of his resume tying a ew things together a bit more. Directly above the circled portion is a statement of Baidu and Tencent Partnership that this guy took place in.

2nd is the circled portion that states project lead for P&G;'s "Hawkeye" audience targeting programmatic buying systems in china.

<https://preview.redd.it/7yk5d6t3nnt71.png?width=1620&format=png&auto=webp&s=bd7080996936416f4f2de4621983d171fd3932bb>

Who is P&G;?

now you know.

Aww. You guys got a cute award from google and Facebook? Best partner? That's so cute.

Also interesting. So when we take a serious look at dis tweet :

yeah yeah googly eyes. or google AI's?.or GOOGLE EYES = Google Surveillance.

hmm. open to interpretation since some might or all might apply.

Thats why this game is fun. It's a giant puzzle to receive what the CHAIR-MAN is showing on the only platform he chose to communicate all year since the gag.. when you truly dive, you will understand what the key is.

interesting enough Google is being litigated in this case :

<https://preview.redd.it/bl8qc1lwft71.png?width=750&format;=png&auto;=webp&s;=ea575dd3734420b24651d0c63f336ec8a3bd809d>

<https://preview.redd.it/n3lue17wwft71.png?width=1334&format;=png&auto;=webp&s;=73565b6cc3bf722774ef956929675ab7e844f38c>

Where essentially they are being litigated for manipulating search results to preferred partnerships. In this litigation the supreme court is demanding that google produce the entirety of its session data and how it relates to ad providers and search results. When you truly think of the implication of American top tech companies sharing Americans data/metadata with a Chinese ad supplier that creates ad's on the fly according to that data... sure seems like a breach of national security when applied to congress or presidential*cough cough* users of these services.

Not to mention the specific targeting of children by AI created ad-spacing controlled by a foreign issuer. Like.. PG-13 comes into play here. At what point is this truly ACCEPTABLE that Kuaizi is developing software that examines a Childs session data to produce the most efficient click-per-hour ads possible? think about this. Commercials are destroyed for this because of legitimate targeting of children. Google is allowed to because of an OUTSOURCING PARTNERSHIP TO CHINA?

Thank you for showing me this shit Chair-man. Fucking ./salute.

Know who else told us we would get here?? This fucking hero :

<https://preview.redd.it/yk0f5pswwft71.png?width=699&format;=png&auto;=webp&s;=55adfe432ba93c05b8b81988fd5a5f50e733a755>

This guy. This guy right here. This ones for you buddy. Go watch his documentary and realize this man personally fought against SOPA so we can stand here now in free discussion and discord

R.I.P.p.s. this is my theory. i will add more to this as it is brought up. I eagerly await Google's release of the session data. I am actively researching into this still. China is hard to navigate.(shoutout to /u/thapurpman to his assistance)

Comically enough it reminds me of this tweet :

<https://preview.redd.it/garnjhbbvnt71.png?width=379&format;=png&auto;=webp&s;=1cf6df73277dee5c1c786ae51b685dec101fd748>

Which seemed to be a reference to season 16 episode 3. When looking that up to watch it on a favorite unnamed streaming site of mine, I found this summary.

Have some fun and join me in this raid.
