- 1.) DRS'd GME shares from my Broker
- 2.) Waited for transaction to complete through Broker (3 business days)
- 3.) Went to ComputerShare to "register" my account in investor center to gain access to portfolio
- 4.) During registration I had option to verify identity "online" instead of "mail".
- 5.) Answered the first question 110% correct yet it tells me incorrect and to wait 2 weeks for confirmation number by mail.

Do I not have access to those shares for 2 weeks now since I cannot verify my account? How are they telling me I dont know my own identity..? (Humor..?)
