Hello fellow apes,

So after the GME earning we will learn that the company is making 1 billion profit every week, they grow the customer base by 500% daily , they will bring back Steve Jobs for the head of marketing and the new layer 3 crypto script will cure cancer in a blink of an eye.

So all in all expect a 5000 % drop, but don't forget that we could only buy andwhat is selling?

So have nice week and be strong.....APES together strong and see you at the Andromeda anus ;)
