Maybe he should take a page out of RC's book. I get a ranty feel from his tweets. I'm not sure the tweets are mature or if he gives them a second thought before a send off. I understand it is twitter so it might be unreasonable to expect profound insights, but I'm not sure why I feel like he brushes me the wrong way. I do however appreciate he has tried to help us gme apes, so I am grateful and clearly conflicted about this!

Anyone else feel queasy about how his tweets though too?
