I got banned after debunking those posts. Yes I had to spam the comment a few times.. the mods were not responding and that narrative could have easily taken over the sub.

And even though it was debunked. u/PWNWTFBBQ kept defending u/radio2saturn

Today I saw another post from the same mod that contacted me for debunking their posts. I saw 2 comments of people wondering if the crypto warning had anything to do with the 30\$ in crypto that MSM has been shilling.

I answered them both directly stating that the only people that pushed a coin recently (which has the same name but is NOT!!! gamestop related) were the following users:

u/radio2saturn

u/HazyLifu

u/TangoWithTheRango_

u/tenjikurounin

u/PWNWTFBBQ

As soon as I commented that. I got banned. no message whatsoever. both debunked.

EDIT: Already getting heavily downvoted. both posts

EDIT 2: Thank you for the awards, but please use that \$ for GME!

EDIT 3: post got downvoted hard on DDintoGME and deleted by the mods

[https://www.reddit.com/r/DDintoGME/comments/pjdyzb/superstonk_has_been_taken_over_banned_after/](https://www.reddit.com/r/DDintoGME/comments/pjdyzb/superstonk_has_been_taken_over_banned_after/) (now removed)

EDIT 4: People are saying they can't comment because of my replies being locked as mentioned on this reddit post:

- * A locked comment may not receive any additional replies, with exceptions for moderators (and admins).
- * Users may still reply to existing children comments of a locked comment unless moderators explicitly [lock the children as well](https://i.redd.it/3fdxhhu5ez21.gif).
- * Locked comments may still be edited or deleted by their original authors.
- * Moderators can unlock a locked comment to allow people to reply again.
- * Locking and unlocking a comment requires the postsmoderator permission.
- * AutoModerator supports locking and unlocking comments with the set_locked action.
- * AutoModerator may lock its own comments with the comment_locked: true action.
- * The moderator UI for comment locking is available via the redesign, but not on old reddit. However, users on all first-party platforms (including old reddit) will still see the lock icon when a comment has been locked.
- * Locking and unlocking comments are recorded in the mod logs.

****What users see:****

- * Users on desktop as well as our native apps will see a lock icon next to locked comments indicating it has been locked by moderators.
- * The reply button will be absent on locked comments.

EDIT 5:

I just got news from one ape that tried to mention this post under the most recent DD of one of the shills mentioned above. He/she said that the huge following was completely oblivious to her role in the pushing of the shillcoin.

<https://preview.redd.it/x48a376wh9m71.png?width=665&format;=png&auto;=webp&s;=5de00de905b05e83e42e58378bff72f471a7fbeb>

[How is his post harassment and toxicity? It's only referring to a post with straight up facts. I heard this one before.](https://preview.redd.it/fxekqsmoh9m71.png?width=876&format;=png&auto;=webp&s;=da4400a950e4d11b745e817c5e1422a517dc1a04)

****Truth is like poetry. And people REALLY hate poetry****

EDIT 6:

The post in DDintoGME which got downvoted to oblivion (96% downvoted) got reported? I had to delete it or I would lose access to my account. Lol

That's a coordinated attack? After she got caught shilling coins? As a DD writer?

For the Twitter people that are blindly spamming here that she does a lot of work and found the "algorithm" (ALGORITHM ≠ PATTERN) she brought those jokes on herself while being condescending towards others. Look at your great leader. If her own words drove people into downvoting her, what chance do you have to defend her? I mean look at your quant??

Your quant has to ask twitter what VIX is????? AND she made the algorithm? Brother pleaaaaase.

THE ONLY THING WE STILL NEED TO INVESTIGATE:

****(ONLY FOUND ON LINKEDIN, But we will not post her LinkedIn, we are better than that! we do not DOX! Every person trying to obtain info to do so, will be reported and possibly banned by the mods.)****

****TL&DR; 1****

****people pushing unrelated shill coin with same name.. 1 of them is a DD writer.. as soon as I exposed them with screenshots.. I got banned.****

****TL&DR; 2****

About the second (perma)ban that came and disappeared a few hours after this post:

\- Nothing conclusive was found on the admin logs by the mods of Sup€rSt0nk.

\- The mods presume it was due to a Reddit policy/algorithm that got triggered.

\- I believe them.

Why?

I always give the benefit of the doubt. after talking with doom_douche & jsmar18. I sense no foul play.. And. They didn't need to hear my story. They could've ignored it. I know that.

Also:

After I got access to Sup€rSt0nk again, my post is getting flagged for:

\- We've been alerted to activity on your account(s) that is considered a violation of our rules on vote manipulation.

\- Crisis Text Line.. lol they think I want to kill myself before the Moass. Try me. Infinity pool anyone?

****TL&DR; 3****

Massive pushback from the twitter followers of the DD shill. massive downvoting, reporting on the latest shill's "DD" (with 3 screenshots lol) post. Loooove the organic snake awards

****TL&DR; 4****

Tired of repeating the same for the Twitter shills:

Is this her? <https://ibb.co/gmFRPL8> ? YES

Was this posted on that shillcrypto post? YES

Was this pushed after radio was pushing shill coins? YES

Was this posted after it got debunked status? YES

That's not looking so good for PWNWTFBBQ to be defending her at this post.. considering her platform as (former credish-able) DD writer

What is the first comment you see after opening that link?

We're working on pushing something out soon.

The other 2 comments are about how we should trust radio, eventhough everybody is debunking her.

she admits it herself..

saturn is pushing shill coins, stating its from gamestop.. which is a LIE! PWNWTFBBQ vouches for her.. says shes working with her.. going to release shit with her. even defended her after it was debunked.

I dunno... Maybe don't write DD with people pushing shit coins?

She made her bed, she can sleep in it.

People came, read, and judged for themselves. = democracy.

****FINAL TL&DR; (For all you twitter shills)****

I'm reporting this. Others have reported she was asking her twitter followers to flood the sub. Synthetic Apes? Pathetic.

Here she is defending and pushing the shillcoin campaign by radio after it was debunked:
<https://ibb.co/gmFRPL8>

Here is the average reaction on superstonk: <https://ibb.co/b57y7BG>

Here she is denying her own words and getting lynched: <https://ibb.co/h7vGRdr>

This? This is your hero? Here she is asking what VIX is yesterday..

LOL yes the volatility index: <https://ibb.co/K2H6JXR>

Here she is asking to DOX us: <https://ibb.co/51cZX3G>

Here she is asking to Flood the sub: <https://ibb.co/kcXbYbT>
