Hey guys,

Europoor from Portugal who sat on the DRS sidelines for too long due to fears of being too difficult to access Computershare from here.

Last week my broker confirmed via phone call that they don't have my shares from the dividend, that was the last straw for me. Fuck these corrupt dumbasses, they won't learn unless we all do something.

56 GME and 100 BBY shares already on transit to Computershare, just signed the papers to transfer more 24 shares. Not much, but it's honest work. I'll be about 90% DRS

Let's finish this fellas, let's suck all the money out of this nerd corrupt fucks pockets. We need to "kill them" before they kill the United States of America. Phone numbers and prison are the only acceptable outcome of this big mess.

Cheers to everyone, be patient and Hodl. We are an ultra destructive force for these hedgefunds.

PEACE
