Today wraps up the 70th consecutive week, or 490th day, without blastoff since I bought into GME. I couldn't have held this long if it weren't for the + posts that help me stay in this thing just one more day. If it takes another 70 weeks then so be it, Even if there is no blastoff...ever.... and we are proven to be truly retarded and in total denial, I at least can say I was a part of either the greatest or dumbest thing I have ever been a part of. Either result will be life changing and worth the wild ride.
