Hi Everyone. what a great Monday! A reversal is confirmed on the 1 week and GME will continue to go up. There was been a lot of interesting activity on the codes for a marketplace announcement and needless to say I'm jacked. Moon soon! I'm sure most of you know me as the retarded crayon eating ape that colors on charts and is always wrong. Everytime I say GME goes to the moon, gme dips. Soooo.... I'm going to say the exact opposite and I say gme is going to 6.9 this week.

Reversal confirmed on the MACD (purple circle) 1st green histogram in over 2 months LFG

and stochastics (blue) bounced to confirm this uptrend.

MACD flipped postive and stochasitcs is going up.

This confirms the reversal!
