New apes and investors, the week starts with VIX up, lots of shares borrowed and crypt0 dropping. \$GME might go up today, down, or sideways. Doesn't matter, funds hunt stop losses and exploit them to their advantage. Please don't use them.

And since it's a new week, it's a great time to vote if you haven't already, buy \$GME if you can, register some more shares, and shop GameStop.

Hold, don't be surprised by anything, and remain steadfast.
