My wife loves Amazon. I asked her to start looking at GameStop first each time she wants to order something electronic. She didn't have good things to say. I told Her to order a video game! Yesterday (Saturday), Amazon offered delivery on Sunday. \$0.03 cheaper than GameStop. GameStop didn't even offer shipping to my house. It only offered in store pick up. I see good things happening in the USA. Hopefully that starts to show up here in Canada. Like the doordash delivery option! If we can't beat Amazon with video games, we have work to do.
