FYI: Changes in Analyst Ratings

Dear Client,

Some investors use analyst ratings to stay informed about their investments. Analysts have changed their ratings for one or more companies in which you hold positions.

The following table displays the affected companies, the current number of analysts by rating category and, in parentheses, the recent change in the number of analysts rating the company within each rating category.

Symbol	Buy	Outperform	Hold	Underperform	Sell	Account(s)
AMC@NYSE	0(0)	0(0)	3(0)	3(0)	2(+1)	
BBBY@NASDAQ	0(0)	0(0)	6(-2)	10(+1)	1(+2)	

Note: Current ratings are from Reuters and may not reflect all rating changes from other sources.

Street Insider and Briefing.
