I think Ryan pulled his investment from Apple and not just to bang all of it to somewhere else. Maybe he loads up with Gamestop thats for sure, but if it's true than the crash is imminent. Obviously RC knows more than us about the shady shit going on behind the scenes and of course he very well knew and already planned the Gamestop move months ahead if not years. Apple is a behemoth, with nearly 3 trillion market cap you cannot really move around and what would be the real unsplit price of Apple? around \$70-80 000?

**\*\*I would say this:\*\*** IF this is true that RC pulled he's investment from Apple but not from Gamestop, it is the most bullish thing I've ever seen.
