I still find it fascinating that the media has only wrote one article about DRS'ing GME shares. This article was written 3 weeks ago and makes us look like a bunch of tinfoil hat wearing paste eaters. Imagine if there was some actual journalism around the DRS movement. That would set a fire to get everyone in the door.

I'm curious to see what happen when 80-90% of the shares are registered and the music is going to stop with fake shares in hand.

Until that day, BUY, HOLD, DRS!
