GME: I've heard quite a bit that a market crash would cause M-O-A-S-S but, I haven't read any post that explain in detail how that works. Although, like everyone else, I want M-O-A-S-S but preferably not while watching so many innocent people lose so much (their homes, 401K's, jobs, businesses etc.). Can a market crash really cause M-O-A-S-S and if so, can somebody explain exactly how? Greatly appreciated.
