Dear Sir/Madam:

Thank you for contacting Computershare, the transfer agent for GAMESTOP CORP. We appreciate the opportunity to be of service to you.

Once the shares will be credited in our records, you may ask us the information regarding online access.

In order to transfer shares held in a brokerage account to a new or existing account at Computershare, you must contact your broker to request that they initiate the transfer through the Direct Registration System (DRS).

If you have an existing account with Computershare, we suggest that you provide your broker with a copy of your most recent statement so that they may process the electronic transfer of your shares. In order for your broker to transfer the shares into an existing account at Computershare, they will need the following information:

- GAMESTOP CORP's CUSIP number, which is 36467W109
- Your Computershare account number, which starts with a "C" and can be found on your statement
- The exact number of full shares you wish to transfer
- The exact account registration listed on your Computershare account
- The Tax Identification Number associated with the account.

If you do not have an existing account, one will be established upon our receipt of the shares from your brokerage firm. Once the account has been established, a statement containing your account details will be mailed to you.
