I see all this bitching over if options are good or bad, should we or should we not. Then i go to WSB and see a ton of posts about "just YOLOD 50k on GME calls". All i can help think is...WHO FUCKING CARES! We all know the only 100% this-is-the-way way is to buy and DRS.

And guess what? Even if options are a shill tactic to get more money for the hedge funds. You know what that means? It means they are broke! It means they desperately need extra money to stay afloat. So who cares! If some retards lose \$50k on options and the hedgies survive another few weeks what's it matter?

MOASS IS HAPPENING REGARDLESS!!

I've waited almost a year, i can wait another year if it takes that long (it won't). So stop getting so bent out of shape and just buy, hodl and DRS!

We have the golden ticket. Willy wonkas factory is ours so just sit patient until you can one day swim naked in that chocolate river.
