I would like to speed up the letter with account information and then also the password letter. I have started DRSED GME shares at March 3, 2022 (Revolut to CS directly thru DriveWealth DRS form) - since then I am trying to call there without success. I have been able to call to UK, they only be able to gave me number + 800 3823 3823 (does not exist according my phone). Anyway, when I am calling other known number from Reddit +1 800 522 6645 I reach the CS company but I can not pass the bot. She is too clever to me :). Without account number or social security number (I do not have neither of them), I am not able to pass towards the agent to tell him my request. Any advise? Tips? How to call directly to agent who can help speed up the letter? I will pay all fees....Trying to DRSED from Czech republic. Also tried to send them several requests via website form on CS - no response.

Thank you APES, proud holder of XXX since Jan 2021
