So Superstonk gets banned by Cabal controlled Youtube and they think appealing it or complaining on Twitter will do any good ■■■■■■

This is for those who have spent all of their free hours researching corruption only on subjects that can make them rich. Newsflash frens, the Cabal exists in more places than just on Wall St ■ They control the Central Banks. They control many world leaders. They control Facebook. They control Youtube. They control Twitter. They control Instagram. They control Amazon. They control Google. They control all of the corporations that are "woke" or are pushing vaccines. They control the Vatican. They control the CIA. They control Reddit. They control many nonprofits and foundations such as The Red Cross and The Bill and Melinda Gates Foundation. They control major pharmaceutical companies. They control most all of the mainstream media.

The globalist Cabal is everywhere and has their swampy tentacles impacting almost every facet of our lives.

There has been a very real fight going on against them that has bubbled to the surface (intentionally) over the last 5 years. By now, most everyone should have realized this regardless of what side of the fence you are on. That being said, in a very coordinated fashion this group of demonic eugenics loving globalist fucks are being taken down and it's minions are resigning, dying or getting arrested one by one.

One huge part of this historic fight is the financial one we are all involved in. The Cabal currently control the world's finances, but that is changing thanks to our DD, resolve, and diamond fucking hands. They won't go down easily because this fight means everything to them. We are busting their piggy bank open and their fortunes they have amassed thanks to their century long gravy train of greed and corruption will soon be ours. <https://flic.kr/p/2mX6tne> This fight is so much bigger than most apes realize. It could very well be biblical:

Our time is almost upon us friends. The end is almost here. We can all sense that. While most of the market is moving up, GME moves down. GME, a company whose executives come from some of the most profitable companies in the world, is experiencing a drop in share price when most every other company's shares are rising. The manipulation couldn't be more obvious.

Some of us choose to research corruption in other sectors (me being one). Some of us choose to research corruption in the financial markets. Some of us choose to pray. Some of us choose to run for office. Some of us choose to join the military. Some of us choose to just buy and hold. Regardless of how you engage the enemy, unless you are part of the globalist "elite" swamp, we are all together in this fight...and we will WIN.

So buckle up friends and get ready. Our fight will change the course of human history.

Obligatory ■■ = ■■

Let's go!!!!
