Here is the old message from prior 10Qs.

"On May 26, 2021, we received a request from the Staff of the SEC for the voluntary production of documents and information concerning an SEC investigation into the trading activity in our securities and the securities of other companies. The SEC has since called for additional documents, as a follow up to the initial request. We are in the process of producing the documents and have been and intend to continue cooperating fully with the SEC Staff regarding this matter. This inquiry is not expected to adversely impact us."

This is the updated language from today's filings.

"On May 26, 2021, we received a request from the Staff of the SEC for the voluntary production of documents and information concerning an SEC investigation into the trading activity in our securities and the securities of other companies. On August 25, 2021, the SEC issued a subpoena calling for additional documents, as a follow up to the initial request. **We are completing production of the requested documents and have been and intend to continue cooperating fully with the SEC Staff regarding this matter.** This inquiry is not expected to adversely impact us."

Feel free to copy paste it on the filing itself if you want a source.

Hopefully we see results from this soon. As the filings have always said, it can't be bearish.
