This is the work of many apes, I thank every one of you for sharing all of this info with me! (Extra shout out to u/Working-Yesterday243) It is a work in progress too, so forgive me if anything is incorrect, or outdated. And please share your experiences with brokers. Or let me know if I'm missing anything!

Apologies for linking to screenshots instead of posts. There are a lot of cross post bans between GME subs I'm trying to avoid.

DRS FAQs

****1. What can I do if my broker cannot transfer using DRS?**** Some brokers won't allow DRS transfers, but they might allow broker to broker transfers. If that's the case, you could transfer from your current broker to an international broker such as TradeStation, XTB or IBKR, then ComputerShare. If you want to do more, you can complain about this to your country's Financial Arbitrator/Ombudsman. [Here's the list of European Financial Arbitrators](<https://finarbitr.cz/en/dispute-resolution/cross-border-disputes-eu.html>).

****2. My broker doesn't know what a DRS transfer is, now what?**** Use these 3 points to help your broker understand: ****1.**** Ask specifically for a DRS transfer to ComputerShare US and to check with their back office about this. ****2.**** Remind them that ComputerShare is a transfer agent and not a broker, so they cannot initiate the transfer. ****3.**** Tell them it needs to be a [DTC W/T Transmission](<https://i.redd.it/8etn8d0xzqn71.jpg>). (W/T means Withdrawal by Transfer!)

****3. My DRS transfer is taking forever what should I say?**** [Here's how to Karen them into doing their job](<https://i.redd.it/myhs1sxhfv71.jpg>).

****4. **Is there a way to get a share from any country in the world, without using a broker?**** [Anyone Can use Give A Share](<https://www.giveashare.com/stock.asp?buy=gamestop-stock>).

****5. **How do I DRS GS2C shares?**** You can move your GS2C shares to IBKR and [convert them to GME shares by following these steps.](<https://imgur.com/d9w8N2Q>) Thanks to u/fearless-chapter-415 for the instructions.

****6. I've DRS transferred my shares, what happens now?****(<https://imgur.com/wo2C0hl>)

****7. Can I speed up the snail mail / delivery times?**** ComputerShare are now able to dispatch the first letter from the UK office to anywhere in Europe for free! The second letter with the pin can be sped up for a fee of \$30, they will send you an email with the pin very quickly, and the letter will also arrive within a week.

****8. **How Should I register my shares after I have my ComputerShare account?**** Both plan and book shares are removed from the DTC. But plan shares are held with ComputerShare and can allow fractionals for that reason. Book shares are 100% in your name only. If you want to convert your plan shares to book them, [follow this guide](https://www.reddit.com/r/GMEJungle/comments/rn4eh8/computershare_step_by_step_instructions_to_change/) from u/thewwwyzzardd.

****9. How do I call ComputerShare?**** Here are ComputerShare's GME specific numbers: ****In the US**** you can call toll free on 800 522 6645. If you are ****outside of the US****: ComputerShare have made a free phone number for GME! The number is: + 800 3823 3823. Most EU countries can call this number, the full

list can be found in the [ComputerShare FAQ](https://www.computershare.com/us/becoming-a-registered-shareholder-in-us-listed-companies). It's the 5th FAQ down. If your country is not on that list, you can use a Skype free trial or a similar web calling platform.

AUSSIE SUPERANNUATIONS

Check out the post by u/thomascullenok. It provides a step by step guide on how you can use your **Superannuation** to buy and DRS GME shares.

US LLCs

Check out u/marco_esquandolass's post in the DD sub about how they're creating **liability protection** for themselves by DRSing with an **LLC** in their name.

See how u/lalich is using **Madison Trust** to open an [LLC account in their own name](https://www.reddit.com/r/Superstonk/comments/tc3n8g/how_to_drs_your_ira_shares_the_god_mode_cheat/).

US IRAs

Can I DRS with an IRA Account? Yes, but not all brokers allow it.

Will DRSing my IRA create a taxable event? It will not as long as you are transferring to an in kind account (from IRA to IRA), or you follow the 60 day rule and return the shares to an IRA within 60 days, or if you bought your shares with your ROTH IRA contributions, you can withdraw the contribution at any time. It's only the earnings on the contribution that is subject to early-withdrawal tax penalty, but please note that transferred shares from the Roth IRA will receive a new cost basis (based on market close) and the holding period will reset (the timer for long term capital gains starts over). According to Fidelity this is IRS law. (Thank you u/boskle!) Calculate how much tax you'd need to pay with this [calculator from the IRS](https://www.irs.gov/help/ita/is-the-distribution-from-my-roth-account-taxable).

Are DRS'd IRA shares removed from the DTCC? The shares are removed from the DTCC, but the bank/custodian ultimately has control over the shares. Because of this some apes have decided to risk the tax hit.

Which IRA Provider can I DRS with and how? It seems like a **local credit union** or any kind of non-broker IRA provider is your best bet. (the [3 way call solution](https://www.reddit.com/r/Superstonk/comments/s9gnp9/drs_your_ira_new_path_without_tax_implications_to/) seems to be the most promising for any broker):

1. **Mainstar** follow u/winebutch's [guide here](https://www.reddit.com/r/Superstonk/comments/scpxs9/another_path_to_drsira_with_no_taxable/) on how they left Ally and DRS'd with Mainstar instead. Although u/jkhanlar found some sus info, like their business address is a residential home. It's still a PO box, but might need some investigating
2. **Horizon Trust** They use a tiered fee schedule based on account value, so it can get pricey
3. **Millennium Trust** Check u/TheFrenchestToast's post in the Jungle about them
4. **Camaplan** [https://www.camaplan.com/direct-registration-of-stocks-drs-protect-your-securities-investment-against-brokerage-default/misconduct/] which might be a bit more costly

Or go to a **Self Directed IRA** [full list here](http://selfdirectedira.nuwireinvestor.com/list-of-self-directed-ira-custodians/):

1. **Mainstar** also offer SDIRAs, check u/superfluouse702's post on the DD sub for Mainstar info
