 **Review Trusted Contact Person**

What?
We encourage you to review the information for any Trusted Contact Person ("TCP") that you have included on your account. If you have not designated a TCP on your account, we encourage you to do so at this time.

Why?
A TCP is someone who is 18 years of age or older that you authorize us to contact regarding your account, particularly if we suspect that your account may be subject to financial exploitation or we have concerns about your health status. Customers of advancing years who could experience declining cognitive ability or health issues may wish to designate a TCP account, but designating a TCP on your account is also useful for other reasons.

Please review the information [here](#) that describes the role of a TCP.

What can I do?
If you would like to provide one or more TCPs on your account, you may provide their information by clicking "Continue" below. Please only list a contact person who is over 18 years old. You may designate one or more TCPs.
