Currently, I am looking to transfer almost all my GME and popcorn shares to Computershare. The Computershare account is already set up and the online account is made, so all ready to go. But what is the best way to get all the shares from DeGiro to CS? I have xx popcorn, XX GME on NYSE and x GME on FRA. This will cost me €100 per position, so €300 total, plus the 15 dollars from IBKR to DRS. This is money I don't really want to spend on transfer costs. So I have 2 options:

1. Put in transfer and pay transaction fees.
2. Sell shares in phases and rebuy on CS or IBKR.

What is the best course of action do you think? Thanks apes!
