The majority of last year felt like the part in the lion king where everyone thinks gme is dead and the pride is taken over by kenny and life is all crappy for everyone.

No one realizes it, but gme is alive and well right now eating bugs and singing hakuna matata in the jungle with a warthog and meerkat.

And there's a monkey guy that knows gme is alive and well and is trying to tell everyone as he jumps around singing about a squashed banana but no one will listen.

Or at least that's how I remember the story. I may have mixed up some character names.
