TLDR: Stop using your NFT Marketplace bookmarks, use search engine with relevant keywords and phrases like "buy nfts" instead.

Imagine if you could directly help our beloved company to be the **#1** organic result for **NFTs** on Google, Bing and other search engines.

There is a simple way to actively contribute and fulfill your duty as a maniacally focussed shareholder that could have huge impact on our ranking*\.*\

1. Instead of using bookmarks **always use search engines**
2. Type in words and phrases like **NFT, Buy NFTs, Best NFT Marketplace, etc.** (in your language!)
3. **Find** GME NFT Marketplace search result, **enter page, interact or buy and stay as long as u can** then close out the tab.

This organic behaviour will motivate search engine algos to **rank us much higher for the words you used in your search.**

Why all of this?

\- increased visibility -> traffic -> engagement -> conversions

\- builds Trust and credibility with search engines

\- cost-effective way reach new potential clients

\- high rankings build long-term equity for our company

\- low effort - high impact task for us shareholders
