Thanks to the community for the past months of life changing moments.

It is so incredible how my view of investing has been changed. But much more interesting is that friends around me can't or maybe won't accept that the financial world is 6D-fraud and the SEC do not protect the small people. I feel like a hermit who won't leave his home.

But on the other hand, my family believe in me. A lot of open discussions in the past lead to investing in GME by them. OK, DRS is still open, but I did and still going on (205 DRS + 13 on its way + 118 waiting for). So thanks to my wife (48), my mother in law (200), my sister in law (14), my nephew (4) and my sister (5). Thanks for the trust.

But one thing is still open --> DRSing them all. Still working.
