I've seen a number of posts lately where people are saying they need gme to launch soon' because 'I've maxed out my credit cards' and the like.

Have you all overleveraged yourselves or something? These posts all claim to be OG Jan 21 apes but seem to have forgotten the golden rule of only investing what they can afford to lose?

It feels like these posts are going hand I'm hand with the 'fake pop' in an attempt to get people to paperhand early.

Just a smooth brained apes observation. Stay safe and please only invest what you can afford to.
