This morning, I was taking a dump when in the distance I heard a train horn. I looked at the clock and wouldn't you believe it...it was 7:41am. Got up and poop was shaped like a nice swirly ice cream cone. Like ryan cohen said, ➡■■■■... (the john ■ being a chair in this situation) it's literally a sign from above. My investment is completely safe and hedgies are (always have been) indubitably fukt. Gotta love this idiosyncratic stock. Got 104 shares recently registered in my name and will show proof if this post goes through. DRS is the way. Won't stop. Can't stop. GameStop.
