# First of all, thank you for all the ways you all have helped to share and advertise

This community is overwhelming. It became a full time job for my partner u/millertime1216 and me but we love it.

# But now we need your help to go viral!! WWW.DRSGME.ORG is NOW ready to extend and increase advertising: we want to reach and educate millions, not just thousands, about DRS.

Our goal from the beginning was to **lock the float** by educating the masses outside of Reddit about DRS, thus exposing the corruption of Wall Street and likely launching MO\*ASS.

The site is absolutely working. We simply need more visitors and eyes on it to educate the world about DRS. Simply visiting the site directly or through a search engine will help our numbers.

So please have a look on the website and if you want, help us spreading the word of DRS outside the borders of Reddit. We have detailed plans there what our plans are with our advertising campaign :)

Changing the world is what's at stake!

Lock the GME float!

PS: We're currently working on a DRSGME bot for Soperstonk which can reply to your comments with the most suitable DRS tutorial for your broker!
