If I had a dollar for every post I've seen saying this week is the one where GME will finally hit the thing which shall not be named...I could probably buy another share. Sure, eventually one of you will be right but sorry, no one gives a fuck. You really think we are going to return to pat you on the back? Sorry, but we are going to be busy doing other shit chump. Enjoy your meaningless Reddit fame though.

I know I'm a cynic and hateful but I'm still BUYING, DRSING and HODLING so I also do not care about your downvotes!
