The electronics entertainment expo is one of the world's largest and most well known gaming expo, so it would make sense for Gamestop to make the announcement for the marketplace there. It would definitely get the word out to a lot of gamers and it is covered heavily by a lot of media. They also said they were going to release the marketplace by end of fiscal q2 2022 which ends on June 30th and the electronics entertainment expo usually happens on the weekend around June 10-13 when they do it. The time frame and publicity seem to fit the narrative, so I believe that's when they will release it. No matter when they release it don't forget to buy, hold, and DRS until then!!
