I've seen dozens of posts about the Reddit IPO, the Sequoia connection and how Reddit is going to be overrun by the enemy.

I see posts linking decade old dance crazes as a place to congregate, talks of a migration to discord, or the dream of a web3 option when Reddit Zuckerburgs out.

I see talk of asking 4chan to help make a GameStop page to keep it from becoming a jumbled mega thread.

I've seen apes that didn't know how to do anything other than fling poo and shovel bananas down their pie holes come to the plate with amazing shitposts, fluff, the most beautiful purple circles and god tier DD.

It's time we realize our power.

We don't need Reddit, Reddit needs us.

We aren't coordinating buys or sells, the DD is done and although the shitposting is AMAZING we don't need any of it.

We won.

All we have to do is wait for the ticker to catch up.
