Just noticed a few really popular GME hype videos are no longer available on YouTube as of recently. I know because I damn near watch those videos everyday. Sucks for me because some of those videos were a great morale booster ■■■

Disclaimer: I forgot the titles of the videos but I can describe them:

- One was a compilation of DFV images and movie references that played Kanye West - Black Skinhead
- Another video was a compilation of Avengers images + Planet of the Apes and Gamestop references.
