With the NFT marketplace imminent, Twoosday coming and the Gmerica filing ... GameStop would essentially be under the Gmerica trademark, no? And if so would that create a new ticker for Gmerica? And even further would that have to cause a share recall/count in order to get the current GME shares to be transitioned into Gmerica? That would be a good thing, yes? Haven't had my crayons this morning, or maybe I've had to many.
