Hi all :) I'm enjoying a wonderful vacation, but I'm missing seeing all of your beautiful purple circles rolling in. A certain DRS project of mine has had a lot more questions submitted to it (through the 'contact us' form) than usual in the last couple weeks. \*\*A lot of new accounts are coming from outside of Reddit as well as the OG sub. Special thanks to one of my heroes u/bibic-jr for all of his work with instructions and answering many of those questions!!\*\*

\*\*The rate of new CS accounts over time :\*\*

34,000 in October

15,000 in November

17,000 in December

10,000 in January

8000 in February (28 days)

10,000 in March

12,000 in April

10,000 in May

4500 in June

\*\*7900 only halfway through July!\*\*

#Keys to locking the float:

1. \*\*We need to educate the masses outside of Reddit what DRS is, why they should do it, and why GameStop is an incredible investment\*\*. There are tons of GME holders out there!

<https://www.drsgme.org/buy-shares-directly>

2. Apes with money tied up in \*\*"other investments", consider converting those to GME and DRS\*\*. What other investment could possibly compare to GME?!? Even IF others can sque\*ze, they can't sque\*ze like GME and only GME has a massive turnaround plan.

"But Miller I don't want all my eggs in one basket. That's why I have other basket stocks." ... Well, the only reason those other basket stocks MIGHT go up a little is because they're tied to GME, so your eggs are still in one basket (at best)!

3. [DRS your IRA or Roth

IRA](<https://www.drsgme.org/direct-register-shares-from-ira-in-kind-direct-transfer>)

4. Apes with shares in \*\*Etoro, T212, and Freetrade : think about selling and re-buying elsewhere!!\*\* It's the only way to DRS with them! These 3 brokers will not transfer to another broker nor will they DRS. Why in the heck would you think they have shares?? They simply take your money and place your bet. Please \*\*don't trust your millions to a broker that won't DRS! Seriously, go read their TOS. (Link at bottom)

\*\*If you haven't DRS'd, why not?!?! I don't trust any broker now. I certainly won't trust them not to screw us

over with the upcoming dividend stock split or during MOA\*S when they're facing insolvency. Make an informed decision, read your broker's TOS!

#Lock the float!!! DRS 100%. Don't give hedgies "one more day"

#Changing the world is what's at stake!!

#TLDR: DRS 100%! Share DRS outside of Reddit.
