SEC probes Melvin Capital after fund lost \$6.8B in meme-stock frenzy

dailymail.co.uk

Wow!! Made dailymail

Lol that was all over Reddit 2 days ago and Susquehanna that received the \$48 Bil margin call along with Citadel were the 2 Hedgies that helped Melvin Capital not go bankrupt last year when the stock only hit \$500+ per share.

I'm telling you, shits hitting the fan in the next 30-60 days baby, that's why we need every one of our shares direct registered
