Real tinfoil hat ape here hello everybody.

Thought this was a fraudulent market? Can't this can kicking just keep on kicking? the entire fucking U.S. economy could collapse because of these fucking shf's and everyone is getting excited over blatantly fraudulent activities happening during after hours? Why dont we all just sit and wait for an announcement from gamestop, and keep buying, DRS'ing and hodling because at this point I feel like Im crazy for choosing to believe all of this media and price action is complete fucking bait to further spread FUD towards my favorite stock when it inevitably gets shorted back down in this shitty financial fucking system that only seeks to destroy our financial freedoms. Im not fucking selling. Anyways yeah idk what this post is supposed to be. Moass tmrw as per usual
