GameStop shares have been [circling the bowl](#) since the meme stock frenzy caused shares of the struggling retailer to explode to \$500 intraday in late January 2021.

For Webull CEO [Anthony Denier](#), the price action in GameStop ([GME](#)) underscores a few things.

"If you see the prices now [for GameStop] — that tells me that diamond hands or apes, I think it's a lot of talk," Denier said on [Yahoo Finance Live](#). "We are seeing our traders and our investors take money off the table in GameStop."
